The Earth Collection

The Earth Collection coatings are **high-end decoration finishes that enhance the beauty and timelessness of the natural effects of lime**, while maintaining the highest standards of **sustainability, benefits and respect for the environment and health**. Based on high quality artisanal lime combined with graphene technology, making them unique in the market.

It is a selection of colors and textures inspired by the Earth.

Highly breathable. Outstanding flexibility, adherence and workability. **Absorb CO₂***.

*The CO₂ absorption occurs during the first 28-30 days after applying the product.

Application Guidelines
